

AT-A-GLANCE

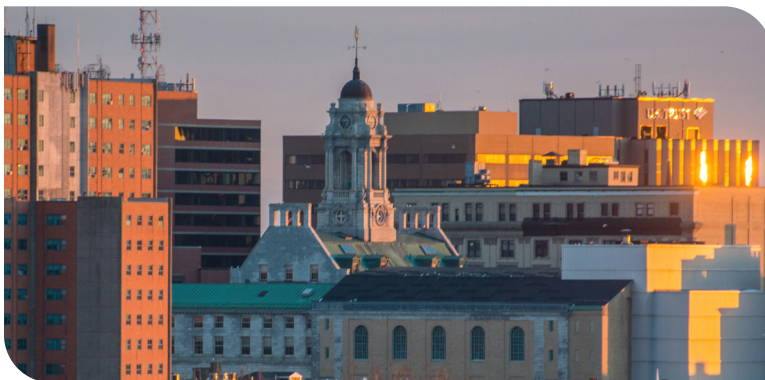

OVERVIEW

340 CUMBERLAND AVE.

CENTRA operates the only carrier-neutral telecom facility and data center across the entire state of Maine. Our PWM1 facility offers flexible colocation options, ranging from single cabinets with 2N power and N+1 cooling to custom dedicated suites or entire private floors.

Built with multiple diverse points of entry, CENTRA PWM1 features a rich ecosystem of dark fiber, lit services, and IP providers. The facility delivers high-security infrastructure, resilient interconnection capabilities, and hosts the NNENIX Internet Exchange.

52,272 SF TIER III+ FACILITY
